

## February Quote

*"Your task is not to seek for love but merely to seek and find all the barriers within yourself that you have built against it"*

### From Principal's Desk

Dear TSSL Family,

George Bernard Shaw categorically asserts that "Life isn't about finding yourself. It is about creating yourself".

The advent of February gives a clarion call to the beholders to rejoice at the blissful and idyllic beauty of the earth with magnanimous heart. Among all seasons, Spring is regarded as queen of seasons due to its grandeur and magnificence in adorning the beauty of nature with boundless hues of flowers, buzzing bees for extracting nectar, fluttering butterflies with its enchanting wings and above all with the pleasant weather. Spring is nature's way of reminding us that every day is worthy of celebration.

There is something about springtime that makes all of us happy. Perhaps, it is apparition of the blue skies and the bright sun - indicating that the summer months are getting closer. Like the rising of the sun, many view spring as the beginning of something new.

Winter is the symbol of desolation and barrenness whereas spring stands for joyousness and fruitfulness. The quotation assumes significant application to the present state of affairs. We are crumbling under the mounting pressure of pessimism and self-frustration. Today various factors of life have made man morbidly tired of himself. In the midst of intellectual, moral and spiritual bankruptcy, the forces of optimism though bleak, appear to be the only sustaining force. It is wrong on our part to lose faith in the ultimate goodness of things. We must realize that in the course of life, good and evil days follow in succession. The beauties of spring make us forget our worries and sorrows.

Our vibrant students would be gearing up for their Annual Examination slated to be held in March. Hence, the need of the hour is to spare quality time with your wards so that they do well in their impending examination as your assistance in academics is imperative and highly indispensable.

Best Wishes,

Dr. Padma Hariharan

Founder Principal

## Co-ordinator's Note

*"The most important communication is hearing what isn't said."*

*Reaching to the student's heart and mind, observing and understanding the facts which students generally hesitate to disclose help us to extract their inborn trait in which they can excel and innovate. Taking our Sanskritians ahead above all odds of life is the forte of our faculty. This forte of our faculty makes The Sanskriti School Lucknow inimitable.*

*Under the guidance of our Founder Principal Dr. Padma Hariharan we try to execute all three A s of our AAA concept - Academics, Activities and Arts to forge Sanskritians ahead not only in academics, but also in vital non cognitive skills.*

*I would once again thank the parents of our Sanskritians for their cooperation and confidence in us.*

*Your faith is our driving force with which we will lead our students in achieving their goals.*

## Student's Pen

Movie Review by Reet Tiwari of Class VI

*Manikarnika - The Queen of Jhansi* is the real life story of the warrior queen. It is a period drama of real life events. She was the first woman in history to fight against the British and started the first war for Independence in 1857. She fought a fierce battle and was killed in combat but her inspiring life story and fight against the British is an inspiring tale of bravery.

The movie has been brilliantly directed by the directors, with strong historical content. From action, story, screenplay, to dialogues & music all were totally mind blowing. The action sequences are excellently directed.

## Editor's Foreword

Dear Reader,

February, the month of love!! Love for family, love for friends. Schools play 'the' very prominent part in a student's life and therefore students' love for their alma-mater is forever.

February is also a month of hard work and reviews. Whatever the child has learned in the academic year needs a walk-through again both by the students and the teachers. The performance in the following month assesses well the endeavours made so far and scope of innovation in both learning and teaching methods. On that note we wish all our students and team members the very best. May all of us come up high with flying colours!!

Thank you

Mili Garg
