

Month: July 2018

Vol.: TSSL-VII/XVIII-III

## July Quote

*July is a special month; a second chance to catch up with what you have missed in the first half of the year.*

*May this July be so wonderful and special, filled with ever lasting memories, hope, smiles, laughter and love.*

## From Principal's Desk

Dear Parents & Guardians,

*It is hard to believe that we have already been in school for over 3 months of this academic year 2018-19! Our students have come in ready to showcase what they have learnt over these three months through sitting in for their first assessment. You as a parent have shown that you play a vital role in your child's success at school by attending the very first PTM. You can do wonders by helping ask your child about his/her day, have a positive attitude about learning, and reading with your child every night. You would be amazed to know what 20 minutes of reading with your child each night will do for his/her language development and reading skills.*

*Thank you for all your support at home!*

*Best wishes,*

*Dr. Padma Hariharan  
Founder Principal*

## Events that Caused a Stir

### Reopening of School Post Summer Vacations & Unit Tests

The School reopened after summer vacations on 2<sup>nd</sup> July. This is the month when academics become the focal point as Unit Tests are around the corner. Therefore revisions, thorough practice, worksheets and solving problems related to studies kept everybody on their toes. Our

First Unit Tests commenced from 16<sup>th</sup> July until 21<sup>st</sup> July 2018.

## Co-ordinator's Note

Dear Reader,

We eagerly look forward to greeting students after a rejuvenating summer break. The chatters of eager minds, the shouts of excitement, the thump of dancer's feet, the sound of melodious voice of our Sanskritians gives us scope to shape the all-round personality of our students.

Dear Sanskritians, the future is now. It means your future depends on what you attempt today, prepare yourself for the exams. You all have great god gifted talents and I thank our talented teachers to polish them and guide you in the right path. Our teachers help us to meet the trust our parents have bestowed in us.

Best regards,  
Sangeeta Agarwal

## July Calendar

2<sup>nd</sup> Mon School Re-opens post summer vacation

16<sup>th</sup> Mon Unit Tests Begin

21<sup>st</sup> Sat Save Rivers Essay & Salad Making Comp.

23<sup>rd</sup> Mon Field Trip to RSC - Regional Science City

27<sup>th</sup> Fri House Activity on Field Trip

28<sup>th</sup> Sat Parents Teacher Meeting

## Visit to the Regional Science City

Trip to the Regional Science City, Aliganj Lucknow, was organised to create scientific interest, awareness and temper among the students and to supplement formal science education. Curiosity and ability to ask questions is one of the most

important features that distinguish man from other species. It is a process through which man tried to understand nature through ages. It results and led to the development of science and technology the benefits of which society is reaping. The students went to explore the modern centre on 23rd July.

This was right after the Unit Tests which gave the students a fresh breath away from the books. The Science Teacher, Mr. Prabhat Srivastava ensured that children get to see all the sections the centre is divided into – Science Park, Historical Gallery, Underwater Exploration Section, Bio-technological Revolution, 3-D Film Fantasy and Science Gallery. Students enjoyed seeing the

modelled dinosaurs at the park and enjoyed a 3-D show. They thanked the RSC authorities for the show and demonstration of some scientific experiments. Refreshments were served and

the very tired group came back safely to return to their homes.

## Student of the Month

Ved Singh  
Class VI

Ved Singh is a very bright child. He has extraordinary calibre, poise and high moral values. The task he undertakes is duly fulfilled in the best respect. In terms of academics he is a gem for the school and his parents. For his age he is much focussed and ever evolving. This term his performance has been the best that earned him the highest grades. TSSL is proud of having him in the formative years of the school.

## Teacher of the Month

Mr. Prabhat Srivastav  
Science Teacher

Mr. Prabhat Srivastava is our trained Science Faculty. He is a very talented teacher who dexterously develops student's interest in the subject. He has always made his teaching interactive and a fun-learning method. As a matter of fact, he joined school this month and has become students' favourite in such a short span of time!

## Salad making Competition

"Every salad you serve is a picture you have painted, a sculpture you have modelled, a drama you have created."

An Inter-House Salad Making Competition was organized for the students of classes VI to IX on 21<sup>st</sup> July. The objective behind the competition was to inculcate healthy food habits

and importance of roughage in everyday diet.

Judgement was made on the basis of nutritional value, presentation, cleanliness, team work and taste. The participants' creativity was seen in the presentation of beautiful decoration of the salad platters. The winning teams were from Jal House and Prithvi House with a tie in total score.

## Parents Teacher Meeting

Our first Parents – Teacher Meeting was organised on 28<sup>th</sup> July in the school board room over a cup of tea at 9.30 am.

The purpose of meet was to

create a common platform, where teacher and parents come together to enrich the student's educational experiences and discuss variety of issues, regarding all round development of students. Grades and report of first Unit Tests was shown to the parents and their concerns related to Academics, Arts and Activities for the first quarter were addressed.

## SAVE WATER

An Opinion  
By  
Ved Singh of Class VI

Water is the most important daily need on our life. We have many natural water bodies. Rivers being one of them. A river is formed by melting of glaciers. There are five main rivers in India named –Ganga, Yamuna, Krishna, Narmada and Godavari. They are gifted by God and are pure and clean. But we, humans are polluting them. Lord Shiva took river Ganga in his hair bun to slow down its current which would have otherwise brought destruction on the Earth. But what have we done? We have polluted river Ganga causing destruction to mankind by disrespecting Lord Shiva's efforts. We know that throwing garbage in river is a bad thing but we still do it. Even the wildlife and farming is getting affected by such an act. We all must take an oath to save our river and Earth by keeping our environment clean. We must also not waste water. A little effort by each person can help the world largely. Without doubt I am sure if we make a change in the way we use water we can save water for years and future generations. The time has come to stop thinking and start working towards making the world a better place to live in.

### Editor's Foreword

Dear Readers,

July is the time when warmth is eager to meet the first cold shower of rains and the earth quenches its thirst. Similarly, it's a wonderful time for any school to welcome back its students and staff, old and new after the summer break, to look up to more learning and activities involving them.

This is also a time for serious studies for Unit Tests. Therefore, due to revisions, class tests the complete focus of both teachers and students was on academics during this month. However, a couple of activities could still find space before and after the start of the examination.

We value your feedback and suggestions that can be sent at:  
[editorialtssledu@gmail.com](mailto:editorialtssledu@gmail.com)

Thank you

Mii Garg

### House Points Until July
